At Elite Dreams Foundation we believe in expanding opportunities and broadening horizons for youth in all communities. Our strategy is rooted in this philosophy and our programs exemplify inspiration, guidance, and a diffusion of fun wrapped up in Responsibility, Respect and the Realization of Dreams!

The Elite Dreams Entrepreneurship Program is designed as a workshop comprising multiple elements with the goal to lead and expose youth to success using sports, entertainment and academics as our platform **for ages 8 and up!** Our program teaches youth entrepreneurship with lessons in speaking, appropriate dress and conduct for the various contexts they are in (soft skills) and also gives them exposure to careers they may not know about with the educational requirements needed to attain them. Our scholarship segment undergirds all of this with secondary education opportunities via support with scholarship search and applications, campus tours and service opportunities. Our Dreams Summit opens the floor for youth to share, express what's on their minds, perform and build community in a safe, non-judgmental holistic space. Our speakers' series comprises a unique blend of professionals in the worlds of sports, education, entertainment and other professions who are equally committed to helping guide, mentor and encourage youth towards success and the realization of their dreams.
